

VEDANT SUTARIYA

B.Tech. — Information and Communications Technology, School of Technology, PDEU

+91-9054484280 | vedantsutariya19@gmail.com | Maliya Hatina, Gujarat, India

vedantsutariya.com | github.com/Vedant28082005 | linkedin.com/in/vedant-sutariya-776268285 | leetcode.com/u/vedant28082005

TECHNICAL SKILLS

Embedded & IoT	Embedded Systems, Embedded C, AVR C, ESP32, Arduino, Raspberry Pi, Serial Communication, Sensors
AI / ML	Machine Learning, Deep Learning, Computer Vision, LLMs, RAG, AI Agents, Scikit-learn, Gemini API, Ollama
Software & Web	Python, Flask, React, Vite, JavaScript, HTML, CSS
Tools & Platforms	AWS, MATLAB, COMSOL, Power BI

EDUCATION

Pandit Deendayal Energy University, Gandhinagar B.Tech. in Information and Communications Technology — CGPA: 8.86 / 10 Minor in Robotics (2024 – 2027)	2023 – 2027
Javiya Schooling System, Junagadh (GSEB) Class XII: 66.76% • Class X: 84.50%	2021 & 2023

INTERNSHIP

Webytude Web Solutions Pvt. Ltd. — Frontend Development Intern HTML • CSS • JavaScript • React • Web Development • Completed the hybrid-mode summer internship of the course curriculum, working across frontend technologies and gaining industry exposure. • Built a 3D Physics Simulator for educational use as the capstone project of the internship.	20 May 2026 – 15 Jul 2026
--	---------------------------

PROJECTS

Dashboard for Sensor Visualisation Arduino, ESP32, Raspberry Pi, React, Vite, Embedded C, AVR C Team of 3 Built a React dashboard that reads ENS160 + AHT21 (I2C) temperature, humidity, CO and TVOC data from an Arduino over serial and renders live timestamped graphs.	Apr – May 2026
RPi Agent Raspberry Pi, AI Agent, Gemini, Flask, Python Developed a Gemini-powered AI agent environment with an HMI for programming Raspberry Pi 5 GPIO pins, using a sandbox agent for Python library management and a separate code-generation agent.	Feb – Mar 2026
LLM + IoT IoT, LLM, Ollama, Flask, Python Connected an ESP32 with DHT11 sensors to a Flask API gateway that triggers a locally hosted Ollama LLM to generate descriptive summaries of room conditions from temperature and humidity readings.	Sep 2025
IoT + ML IoT, ML, Scikit-learn, Flask, Python Deployed a Random Forest weather classifier behind a Flask server that predicts conditions from temperature and humidity streamed periodically by an ESP32.	Aug 2025

CERTIFICATIONS

- Machine Learning A-Z [2026]: ML, DL, AI with AWS, Python & R — Udemy
- Deep Learning and Computer Vision A-Z + AI & ChatGPT Prizes — Udemy
- Develop Embedded Systems using Embedded C on AVR — Udemy

WORKSHOPS & TRAINING

- Industry Approach to IoT with Deep Learning**, PDEU (Oct 2023) — hands-on ESP32/ESP8266 training; **secured 1st place** in the closing hackathon with an Industrial Monitoring and Intruder Detection System.
- Advanced Sensor and Actuator Based Device Design for Industry Application**, PDEU (Feb 2025) — sensor/actuator design and simulation in COMSOL.
- Multimedia Signal Processing Cup**, PDEU (Sep 2024) — signal processing with MATLAB.
- Data Science Odyssey & DATANOMICS**, PDEU (Sep – Oct 2023) — hands-on AI/ML, Python, Scikit-learn, Power BI and EViews.

ACHIEVEMENTS & ACTIVITIES

- Recipient of the MYSY scholarship.
- Delivered a lecture in a department workshop on Raspberry Pi, Embedded and IoT devices.
- Volunteered at the 2-day workshop on Image Processing using Python.
